

Associate Engineer / Project Engineer (m/f/d)

Stuttgart area

Our client is a leading supplier of automotive technology products. The company is currently looking for an Engineer for the branch in Stuttgart area.

Depending on the experience, a start in a higher position as well as in a junior position for career starters is possible.

Your tasks

You will join the engineering team and participate in product design and development activities. Your tasks will include:

- Collaborate with European OEMs, suppliers, and cross-functional teams to develop innovative, cost-effective solutions and technical recommendations as well as ensuring that quality standards are met
- Coordinate with customers to gather feedback, clarify specifications, and ensure satisfaction.
- Perform testing, evaluation, and feasibility studies of automotive components (for example Sunroofs, Pneumatic seats, Power back doors, Grill shutter, Auto doors and more) to ensure industry compliance.
- Utilize design software (CATIA-V5, Siemens NX) for product design and modification.
- Support the improvement of engineering processes and provide technical assistance throughout the product lifecycle.
- Stay updated on industry trends, technologies, and regulations in automotive engineering.

Your profile

- Completed University degree or vocational training, preferably in the engineering field
- First engineering experience necessary, preferably in the automotive field
- Customer communication skills, with the ability to effectively collaborate with cross-functional and international teams, suppliers and customers
- Experience with design software such as CATIA-V5 or Siemens NX
- Knowledge and understanding of design and production of automotive components welcome
- Language skills: English fluent, Japanese and German skills very welcome
- Excellent communication and organizational skills

Benefits

- Permanent full-time position (38 hours/week) in an international corporation
- Hybrid working model with flexible working hours
- 30 days' vacation
- Additional social benefits such as meal vouchers, performance-based bonus, winter bonus (up to €400 after the first year of employment)
- Start: Immediately (negotiable)
